AMENDMENT

Entry of the following is respectfully requested. Please amend the following.

IN THE CLAIMS

Please amend the claims as follows:

36. (New)   A method of providing an updated known-good configuration for a computer, comprising:

   determining an updated combination configuration of software and hardware is a known-good configuration for the computer;

   storing the determined known-good updated combination configuration to a known-good data storage device;

   receiving a non-interactive user input for restoration of the computer to a known-good combination configuration; and

   restoring the known-good updated combination configuration upon reception of the non-interactive user input.

37. (New)   The method of claim 36, wherein restoration of the known-good updated combination configuration is restored without rebooting the computer.

38. (New)   The method of claim 36, further comprising: prompting a user to store the determined known-good updated combination configuration.

39. (New)   The method of claim 36, wherein the non-interactive user input is at least one of a single switch, a key, and a simultaneous key combination.

40. (New)   The method of claim 39, where the non interactive user input does not require user entry of information or interface with a graphical user interface.

41. (New)   The method of claim 36, wherein a known-good storage device is a hard drive.
